MSRP Price List Instructions for Hospital Catalog #702419 Effective 07/01/2010

SPECIAL INSTRUCTIONS:

An * Following a Product Number in this Price List indicates the following:

Those STAINLESS STEEL and LAMINATED Products are MADE-TO-ORDER PRODUCTS

Laminate Product Prices and Availability in this Price List, are for products Finished in the following Colors: A001 Almond, D001 Designer White, F002 Fashion Gray

Laminated Products can be FINISHED with CUSTOM Colors, Contact SUBURBAN SURGICAL COMPANY for Prices and Availability

MADE-TO-ORDER PRODUCTS are Non-Cancellable, Non-Returnable and Non-Refundable

WARRANTY AND NON-WARRANTY REPAIR POLICY:

Please call our Customer Service Department at 1-800-323-7366, ext. 3518.

8:30AM - 5:00PM CST Monday - Friday.

Step 1: Discuss what is wrong with the product.

Step 2: SSCI will issue a Return Merchandise Authorization Number. The Return Merchandise Authorization Number must appear on the outside of shipping carton.

Step 3: Customer must package products in original shipping cartons and materials or in other appropriate shipping materials to prevent the products from being damaged in transit. If the products are damaged in transit and SSCI determines that the products were packaged improperly, SSCI will file a freight claim and call the customer with an estimate for repair. The customer can wait for the outcome of the freight claim or authorize the repair of the freight damages.

SSCI will call the customer and advise if the repair is covered by the warranty. If the repair is not covered by warranty, SSCI will provide an estimate for the repair and ask for authorization to proceed.

SSCI does not have products to loan to customers while their product is being repaired. By following the above procedure, SSCI will be able to make any necessary repairs in the minimum amount of time possible.

Warranty for Merchandise Manufactured of Stainless Steel is void if it is determined if they where subjected to harmful cleaning agents. See "Guide to Care and Cleaning of Stainless Steel", packaged with each new Stainless Steel Product.

TERMS AND CONDITIONS

Made-to-Stock Products:

Manufactured on a regular basis, typically in stock.

Made-to-Order Products:

Manufactured on a per order basis, therefore products are non-cancelable and not returnable.

Prices:

All prices include packaging and/or crating for domestic transportation.

Taxes:

Illinois residents will be invoiced for the current Illinois Sales Tax. All products picked up at SSCI's factory by the customer will be invoiced for the current Illinois Sales Tax. All other Federal, State or Municipal taxes now applicable, or which may be imposed upon the sale, possession, or use of the equipment, will be the responsibility of the purchaser.

Merchandise Payment Terms:

Various payment terms are available.

MSRP Price List Instructions for Hospital Catalog #702419 Effective 07/01/2010

Latest Shipping Date:

The last date of the Shipping Window for SSCI to ship products. This date includes the "Manufacturing Lead Time" required for SSCI to manufacture the products you have purchased after you have satisfied all required Customer Order Requirements.

Shipping Terms:

F.O.B. our factory in Wheeling, Illinois

Shipping Service Payment Terms:

Various payment terms are available.

Order Acceptance:

All proposals are subject to acceptance by SSCI, 275 Twelfth Street, Wheeling, Illinois 60090. Accepted proposals will be acknowledged with a Sales Agreement, and a copy of which is sent to the customer. SSCI will process the Sales Agreement and manufacture the products per the stated Customer Order Requirements, terms and conditions on the Sales Agreement.

Product Return Policy:

No products will be accepted without a Return Authorization Number. SSCI Customer Service Department must be notified via phone, within 10 days of customer's receipt of products, of the customer's intent to return products. For any products being returned, please call our Customer Service department at 1-800-323-7366, ext. 3518 for a Return Authorization Number and shipping instructions. There is a restocking charge for returned products. All freight charges are the customer's responsibility. NOTE: Made-to-Order products cannot be returned or exchanged.

Returned products must be unused and in the original shipping container in order to be eligible for credit.

Changes To Orders:

SSCI will do its best to accommodate changes you request to your order once it has been processed. Please be advised that changes may extend SSCI's Shipping Window and increase your costs, depending on when they are requested. Made-to-Order products cannot be cancelled or changed, if engineering and/or manufacturing has started, without additional cost to the customer.

Product Improvement:

We reserve the right to make changes in the design, color or construction of any products we manufacture which are illustrated in our catalog or supplementary brochures without notice. This is done to improve, wherever possible, the aesthetic and structural value of our equipment for our customers.

CUSTOMER ORDER REQUIREMENTS

We want our customers to be satisfied with their purchases from SSCI. Our sixty years of experience in manufacturing veterinary equipment has helped us develop procedures to provide accurate communications with our customers.

Your SSCI salesperson will discuss with you, your individual equipment needs and plans. The SSCI salesperson will then prepare a detailed proposal for your review and approval. This proposal will include the products you've selected, with their manufacturing lead times, the shipping method, the shipping payment terms, and the product payment terms. This proposal will also list which SSCI Customer Order Requirements are to be completed by the customer. If changes are required to the proposal, contact your SSCI salesperson and discuss your changes. The SSCI salesperson will prepare a new proposal, to meet your requirements.

Accepted proposals will be acknowledged with a Sales Agreement. A copy of the Sales Agreement will be sent to the customer. Please note; Made-to-Order products cannot be cancelled or changed, if engineering and/or manufacturing has started, without additional cost to the customer.

The following are explanations of the various Customer Order Requirements. Your proposal will list some of the following Customer Order Requirements which apply to your order.

MSRP Price List Instructions for Hospital Catalog #702419 Effective 07/01/2010

Specify Laminate & Color:

Required for proposals including laminated products

Specify Drawer / Door Pulls:

Required for proposals including laminated cabinetry

Specify Earliest Date Customer Can Receive Products:

This is the earliest date your facility will be ready to receive the ordered products. This date is necessary for SSCI to schedule a shipping window for your order. For more information about The Shipping Window, please see the next page.

Customer specifies the Earliest Shipping Date when ordering products:

Provide the Earliest Shipping Date to SSCI at time of order. This is typical for existing facilities or when construction has progressed to the point where customer is sure that the products can be received on or after that date.

Customer does not specify the Earliest Shipping Date when ordering products:

SSCI will accept an order without an Earliest Shipping Date Customer Can Receive Merchandise. This is typical prior to, and in the early stages of, remodeling or new construction. The order will be processed and prices will be locked in, but SSCI cannot establish a Shipping Window until the customer advises SSCI of their Earliest Shipping Date Customer Can Receive Merchandise. It is customer's responsibility to advise SSCI of the Earliest Shipping Date Customer Can Receive Merchandise soon enough to allow adequate time for SSCI's manufacturing lead times.

Provide Payment: Amount required to begin manufacturing

Provide Confirmed Irrevocable Commercial Letter of Credit: Required for all international orders

Provide Purchase Order:

Required only for orders where the customer's procedures require a Purchase Order Number for receiving products and payment of invoices.

Read and understand SSCI's Freight Receiving Procedure:

Included on all proposals are the procedures to receive and inspect your freight to protect you in the unlikely event of shipping damage or shortages.

Approve Approval Drawing(s):

Required for proposals with laminated products, cage arrangements, animal pens, cabinet arrangements, prep / procedure / treatment centers, etc.

Your approval drawings are an exact illustration of your products and how it will be arranged. These drawings insure that we provide the appropriate hardware to assemble our products into your desired configuration. It is critical that you review these drawings to insure the design, dimensions, laminate colors, drawer & door configurations, etc., will all meet your needs. If there is anything you do not understand, or that is not suitable for your needs, please do not sign these drawings. Contact your SSCI representative to discuss any needed changes or revisions.

Approve Proposal:

Indicates that the proposal is acceptable and the customer agrees with all products proposed, Customer Order Requirements and terms and conditions.

MSRP Price List Instructions for Hospital Catalog #702419 Effective 07/01/2010

SHIPPING WINDOW

The Shipping Window is established after you satisfy all required Customer Order Requirements for your order, including Earliest Date Customer Can Receive Product.

The Shipping Window is the days between customer-specified Earliest Date Customer Can Receive Product and The Latest Shipping Date assigned by SSCI. SSCI reserves the right to ship the products anytime within the Shipping Window.

There are four situations which determine The Shipping Window:

Customer knows the Earliest Shipping Date when ordering products:

Situation 1 - Customer satisfies all required Customer Order Requirements for the order and can receive product immediately. In this situation, the Shipping Window will be determined by the longest manufacturing lead time of the products ordered, establishing the Latest Shipping Date.

Situation 2 - Customer satisfies all required Customer Order Requirements for the order and does not want to receive product until a future date that is longer than the longest manufacturing lead time of the products ordered. In this situation, The Latest Shipping Date will be the same day as the Earliest Date Customer Can Receive Product - A Shipping Window is not required, because the sufficient manufacturing lead time was built into the Earliest Date Customer Can Receive Product.

Customer does not know the Earliest Shipping Date when ordering products:

Situation 3 - Customer satisfies all required Customer Order Requirements for the order except customer has not satisfied Earliest Date Customer Can Receive Product. In this situation, the Shipping Window cannot be established until the customer advises SSCI of Earliest Date Customer Can Receive Product. Customer advises SSCI, allowing a minimum of time required for the longest manufacturing lead time of the products ordered. In this situation, The Latest Shipping Date will be the same day as the Earliest Date Customer Can Receive Product - A Shipping Window is not required, because the sufficient manufacturing lead time was built into the Earliest Date Customer Can Receive Product.

Situation 4 - Customer satisfies all required Customer Order Requirements for the order except customer has not satisfied Earliest Date Customer Can Receive Product. In this situation, the Shipping Window cannot be established until the customer advises SSCI of Earliest Date Customer Can Receive Product. Customer advises SSCI, not allowing a minimum of time required for the longest manufacturing lead time of the products ordered. In this situation, The Shipping Window will be determined by the longest manufacturing lead time of the products ordered, establishing the Latest Shipping Date.

IMPORTANT

If you are unable to accept delivery of your order during the established shipping window:

If you postpone shipment of the products within the Shipping Window, before the products have shipped and after SSCI has begun manufacturing the products, SSCI will defer the shipment for up to 5 days. After 5 days, SSCI will place the products in storage and invoice the customer for the products. At the time the customer requests the products to ship, SSCI will ship the products and invoice the customer for the storage charges.

If the products have been shipped and you cannot receive the products, you will have to make arrangements to store the products. If you put the products into temporary storage, you should follow SSCI's Recommended Merchandise Receiving Procedures. If you wait to inspect the products until they are removed from storage, there can be no freight claims filed.
