STAINLESS STEEL BATHING TABLES

A WIDE VARIETY OF MODELS MAKE SSCI YOUR BEST SOURCE FOR TOP-QUALITY BATHING TABLES

Efficient bathing equipment is an essential component of virtually every pet care facility. Whether your business specializes in regular preventative care, emergency services, boarding or grooming, you'll build customer satisfaction when you send your clients home from your facility bathed, groomed and sweet smelling.

That's why we offer an amazing number of bathing table combinations. We want you to be able to choose the exact bathing table configuration you need to be able to efficiently bathe the animals in your care. Select a Bathing Table with the faucet on left, back or right. You can even specify exactly which splash shields you need to minimize water damage from over spray. Our Classic series Bathing Tables are designed to allow the most comfortable working height.

Classic 15 Bathing Table with tubular stainless steel base, right side door with rotating walk-up ramp

Classic 15 Bathing Table with tubular stainless steel base

But that's not all. We even offer Bathing Table tubs with an easy access door located on the right or left side with a rotating walk-up ramp. You'll never have to lift a heavy, wet animal in or out of the tub again. Imagine the convenience!

The entire Table — Tub, Splash Shields and Base — is made of Type 304 stainless steel, heli-arc welded for superior strength. All welds are ground smooth, and the entire tub assembly features a uniform, non-glare finish.

Splash Shields

One-piece Side Splash Shields with .750-in. (1.90cm) radius corners, and bottom lip that overlaps the tub edge keeps water away from walls.

Splash Shield section behind faucet is prepunched for easy faucet installation.

Splash Shields measure 27-in. high (68.58cmH).

Wall-mounted faucets and drains are sold separately, see Faucet Section.

Tub

.750-in. (1.90cm) radius bends on all sides and bottom give tub a smooth, easy-to-clean interior surface.

.750-in. (1.90cm) covered corners eliminate accumulation of dirt and debris.

Seams are fully crevice-free welded.

All welds are ground smooth, and the entire tub assembly features a uniform, non-glare finish.

3.5-in. (8.89cm) dia. opening for standard drain.

Bottom slopes 1 in. to drain.

Tub is 16-gauge, Type 304 Stainless Steel

Tubular legs are Stainless steel, Type 304, satin-finished, 1.25-in. (3.17cm) dia.

Adjustable floor levelers help keep table steady on uneven floors.

Base design allows tub to sit flush against wall.

All welds are ground and polished to a smooth, crevice-free, satin finish.

Base

Die-formed wrap-around apron holds tub steady on frame and is Stainless Steel, Type 304, 16-gauge.

Apron's corners are fully crevice-free welded.

Legs are fully circumference welded to the apron.

Tubular crossmembers are Stainless Steel, Type 304, satin-finished, 1-in. (2.54cm) dia.

Crossmember's ends are coped following the circumference of the tubing at each joint for strongest fit and are circumference welded.

Classic Bathing Table Stainless Steel Enclosure

Tub Panels

The Enclosure's panels are manufactured using Type 304 Stainless Steel with #4 satin finish.

Enclosure tucks up under the lip of the Classic Bathing Table and clamps to the Table's tubular legs.

The End Panels on the Enclosure are butted to the Sliding Door Front and Back Panel when applicable. This provides a finished look to the Enclosure.

The Sliding Doors double wall construction eliminates sharp edges and is manufactured using Type 304 Stainless Steel with a #4 satin finish. Finger Pulls allow easy opening and closing.

The Sliding Doors allows easy access to store items under the Classic Bathing Table on the facility's floor.

Enclosure configuration shown is F2

Classic Bathing Table Stainless Steel Accessories

Stainless Steel Front, End or Back Panels give the Classic Bathing Table that finished look to match your decor. The Optional Sliding Panels on the front provide you with additional storage for products and materials. All Enclosure panels are 36-in. (91.44cm) high.

Classic Bathing Tables with Access Door and Rotating Ramp

Bathing Table

One-piece Tub/Side Splash Shields with .750-in. (1.90cm) radius corners, and bottom lip that overlaps the tub edge keeps water away from walls.

Single lever faucet/mixing valve allows you to preset your maximum temperature setting.

.750-in. (1.90cm) radius bends on all sides and bottom give tub a smooth, easy-to-clean interior surface.

.750-in. (1.90cm) covered corners eliminate accumulation of dirt and debris.

Seams are fully crevice-free welded.

All welds are ground smooth, and the entire tub assembly features a uniform, non-glare finish.

3.5-in. (8.89cm) dia. opening for standard drain.

Bottom slopes 1 in. to drain.

Tub is 16-gauge, Type 304 Stainless Steel

Wall-mounted faucets and drains are sold separately, see Faucet Section.

Design

Exclusive one-piece design incorporates .750-in. covered inside corners and .750-in. radius bends on tub and splash shields

Base

Tubular legs and crossmembers are Stainless Steel, Type 304, satin-finished.

Crossmember ends are coped following the circumference of the tubing at each joint for strongest fit and are circumference welded.

Stainless Steel adjustable floor levelers help keep table steady on uneven floors.

All welds are ground and polished to a smooth, crevice-free, satin finish.

Access Door & Rotating Ramp

Rotating walk-up ramp has non-slip dura-grid surface which provides traction wet or dry.

Stainless steel hinged door swings in to allow for easy entry and exit. Includes heavy-duty, spring-loaded, self-latching positive door catch designed and used exclusively by Suburban Surgical.

Access door and rotating ramp are available on left or right side.
