Suburban Surgical Co., Inc.

275 Twelfth Street, Wheeling, IL 60090

ARISTO-CAT KITTY SUITE:
DEVELOPED AND AVAILABLE FIRST AT SSCI —
SPECIAL ACCESS FEATURES ALLOW CATS TO MOVE BETWEEN SUITES

ARISTO-CAT KITTY SUITES ARE AVAILABLE IN A VARIETY OF STYLES:

**Full-View Back Aristo-Cat
Kitty Suite**

**Corner Aristo-Cat
Kitty Suite**

☗ SUBURBAN SURGICAL CO, INC.

When it comes to boarding cats, Aristo-Cat Kitty Suites are the right choice to help you generate more revenue. SSCI's flexible modular design allows you to control both vertical and horizontal access to adjoining cages. Depending on occupancy levels, you can provide boarders multi-room suites and generate upgrade fees for housing that would otherwise be unused. Closing all adjoining cage connections allows for boarding the maximum amount of animals.

Your clients will love the warm upscale look you can create with hundreds of color choices and you'll love the durable, high-quality construction SSCI puts into every Aristo-Cat Kitty Suite we build.

Best of all, you can design the Aristo-Cat Kitty Suite Arrangement that fits your individual needs. First determine what size Suites you prefer, then design the number of tiers and Suites per tier you want in your Arrangement.

Please see the following pages for a full description of how to design the perfect Aristo-Cat Kitty Suite Arrangement for your needs.

Aristo-Cat Kitty Suite Arrangements may be made with any style Aristo-Cat Kitty Suite.

**Full-View Back, Corner
Aristo-Cat Kitty Suite**

Aristo-Cat Kitty Suites allow your boarders to move between Suites for greater freedom and comfort.
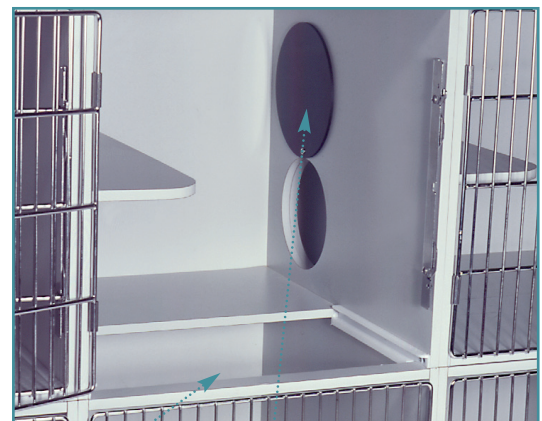

Front floor sections slide out easily to give vertical access.

Rotating black acrylic door in sidewalls pivots up out of the way to expose the horizontal access ports.

ALL SSCI ARISTO-CAT KITTY SUITES ARE DESIGNED WITH THESE QUALITY FEATURES:

Door

Stainless steel door spokes are deburred smooth to eliminate sharp ends.

Door fits snug to the Suite body to eliminate areas where an animal's paws could be pinched.

.1875-in. (.48cm) diameter stainless steel vertical spokes are spaced 1-in. apart and welded at every intersection to crossmembers and frame.

.3125-in. (.79cm) diameter stainless steel door frame and cross-members are welded together for strength.

Stainless steel, electropolished removable ambidextrous door may be remounted with hinges on the right side with no additional parts.

Fixed Resting Shelf included with every Aristo-Cat Suite

Hinges

Heavy 12-gauge stainless steel hinges allows the door to operate smoothly.

Hinges are thru-bolted with a threaded connector to sides of cage using a 'T'-nut.

Latch

Stainless Steel Latch easily disassembles for sanitizing and adjusting.

.3125-in. (.79cm) diameter stainless steel latch keeper latches door securely.

Heavy 12-gauge stainless steel latch brackets.

Latch connector bar is notched for easy opening.

Heavy 12-gauge stainless steel self-latching door latch connector is designed to accommodate a padlock for greater security.

Body

Constructed of specially designed water-resistant .625 in. thick substrate Glued and mechanical-ly-fastened at all joints for extra strength. All joints are bonded with a glue that is impervious to liquid.

Access Features Available

Rotating black acrylic door in side-wall pivots up out of the way to expose the horizontal access ports between Suites and allow cats to move from Suite to Suite.

Suites in lower tiers have an open top. Simply remove the floor in the Suite above to give cats access to the upper tier.

Front floor sec-tions in upper tiers slide out easily to give cats vertical access to lower suites.
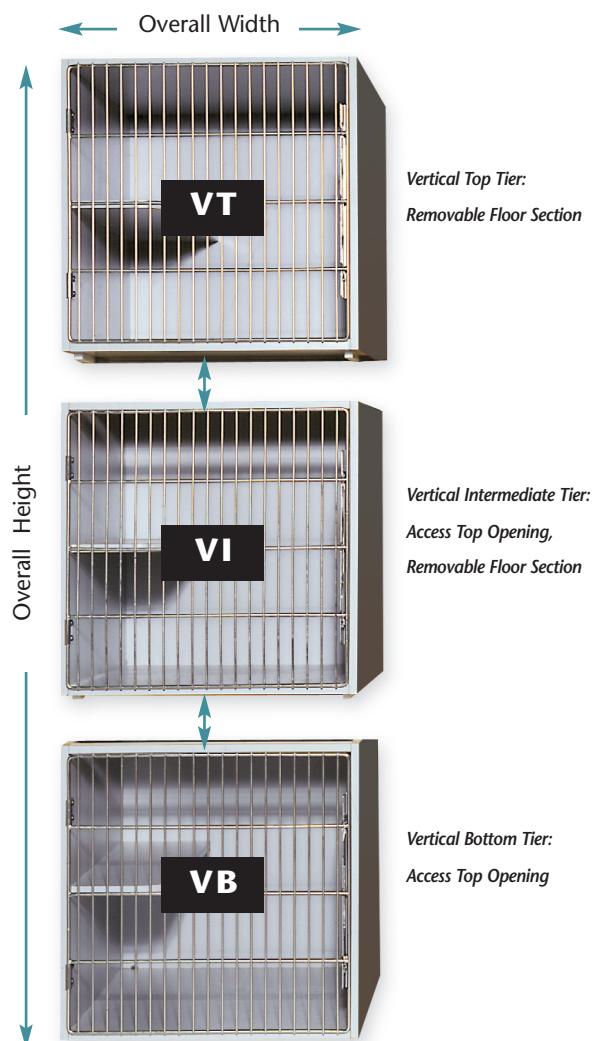

Floor seams are sealed with an epoxy sealant. The sealant extends up the side joints for a few inches.

Plastic laminate is bonded to interior and front surfaces before assembly with a high-pressure press to cre-ate a superior moisture barrier.

Vertical Access Aristo-Cat Kitty Suites
(1 Suite Wide)

*Removable Floor Sections and

ALL SUITES IN ARISTO-CAT KITTY SUITE ARRANGEMENTS REQUIRE POSITION CODES

First, determine the Access Style you prefer:

There are three styles of Arrangements:

Vertical Access Arrangement: 1 Suite wide, see example at left.

Horizontal Access Arrangement: 1 Suite high, see example below.

Vertical & Horizontal Access Arrangement: Multiple Tiers with Multiple Suites in each tier, see example on the following page.

Then, identify the Position Code for each Aristo-Cat Kitty Suite in the Arrangement:

Position Codes determine the physical placement of each Suite in your Kitty Suite Arrangement. Each code indicates the combination of removable floor section and/or access top opening and side access ports. The Position Codes are shown in the black boxes on each Suite in the examples.
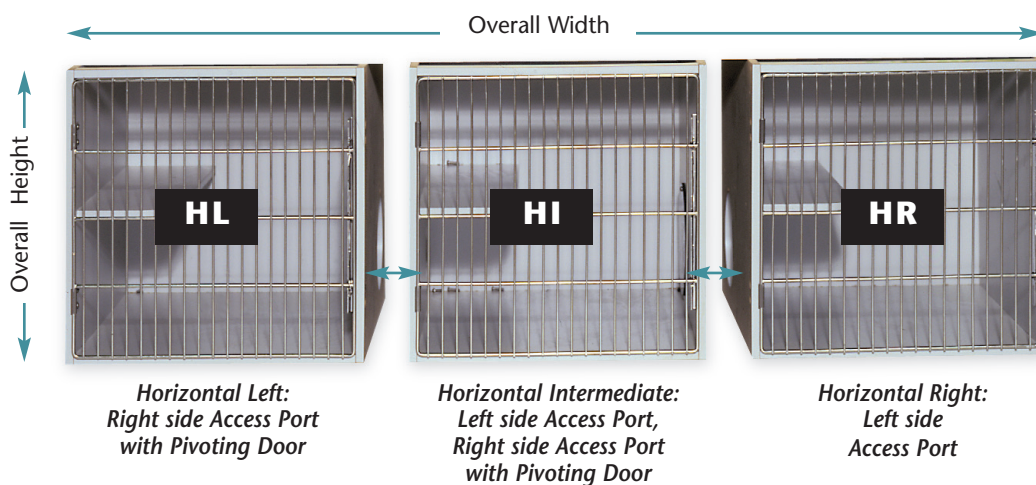

Corner Kitty Suites
are used in L-shaped Arrangement.
Remember, when Corner Suites are used,
only Corner Suites can be used
in the same vertical position
on all tiers.

Horizontal Access Aristo-Cat Kitty Suites (1 Tier High)

Sidewall portholes allow horizontal access.

The Intermediate Suite Position is the only position that Corner Kittys can be used.

NOTE: Kitty Suite Arrangement examples pictured here are for illustration only. When installed, Suites will fit tightly together as shown on the following pages.

S U B U R B A N   S U R G I C A L   C O ,   I N C .

Aristo-Cat Kitty Suites

Aristo-Cat Kitty Suites are available for different types of access between suites. Arrangements can be built with vertical access, horizontal access or both vertical and horizontal access. To indicate the position of each Suite in your Arrangement, insert the position code in the two spaces indicated by the asterisk (*). This will specify the position of the suite in the product number. Please see our illustrations of Aristo-Cat Kitty Suite Types in Section 3 on pages 4 and 5 to determine the appropriate position codes for each Suite product number.

Suites are shipped individually to reduce your shipping costs and allow quick and easy set-up in your facility.

	SUITE SIZE	
P/N	Inches	Centimeters
16000 _ * 00DRDREI-_ _ _ †	24W x 24H	60.96W x 60.96H

Corner Aristo-Cat Kitty Suites

Don't let your corner space go to waste. These versatile, attractive suites are designed to fit perfectly in a corner to create an L-shaped Arrangement. Corner Aristo-Cat Kitty Suites may be used in any Kitty Suite Arrangement. Corner Aristo-Cat Kitty Suites are available for different types of access between suites. Arrangements can be built with vertical access, horizontal access or both vertical and horizontal access. To indicate the position of each Suite in your Arrangement, insert the position code in the two spaces indicated by the asterisk (*). This will specify the position of the Suite in the product number. Please see our illustrations of Aristo-Cat Kitty Suite Types in Section 3 on pages 4 and 5 to determine the appropriate position codes for each Suite product number.

Suites are shipped individually to reduce your shipping costs and allow quick and easy set-up in your facility.

P/N	DOOR
17000 _ * 00DRDREI-_ _ _ _†	24W x 24H
17000 _ * 00EPDREI-_ _ _ _†	24W x 30H
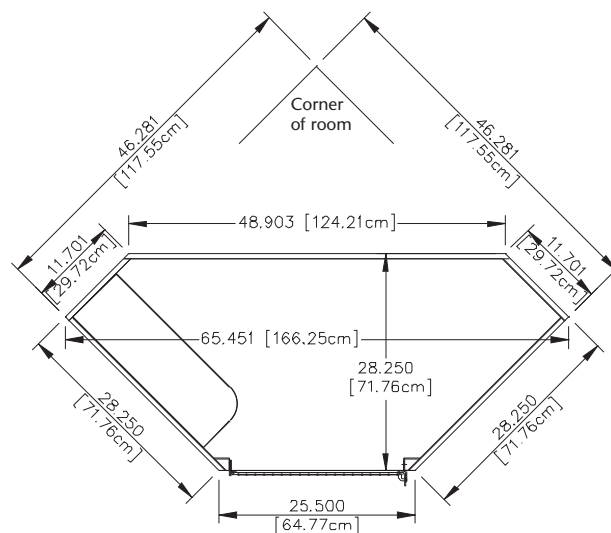

All Suite bodies measure 28.250-in. (71.76cm) front to back.
Suites measure 30.182-in. (76.66cm) deep overall, including latch.

Important: These customer order requirements, in addition to other customer order requirements, must be satisfied prior to the beginning of manufacturing lead time:
*Specify 2-digit Suite Position code. See Section 3, pages 4 and 5 for Suite Position Codes.
†Specify 4-digit Color code. See Color Selections, Section A, pages 1 & 2 for Color Codes.

SSCI laminated products are available in SSCI standard laminates, SSCI optional laminates, or Customer selected laminates.

Clear polycarbonate window in back panel allows animal to be seen thru rear of suite.

Silicon sealant with epoxy around inside perimeter, providing a tight seal.

Full-View Back Aristo-Cat Kitty Suites

Full-View Back Kitty Suites are ideal for observation in post-op and boarding or for facilities where animals are on display to the public. Clear back polycarbonate panel allows animals to be seen from either side of the Suite. These suites have all the fine features of our Aristo-Cat Kitty Suites with the addition of a polycarbonate back panel. Aristo-Cat Kitty Suites are available for different types of access between suites. Arrangements can be built with vertical access, horizontal access or both vertical and horizontal access. To indicate the position of each Suite in your Arrangement, insert the position code in the two spaces indicated by the asterisk (*). This will specify the position of the Suite in the product number. Please see our illustrations of Aristo-Cat Kitty Suite Types in Section 3 on pages 4 and 5 to determine the appropriate position codes for each Suite product number.

Suites are shipped individually to reduce your shipping costs and allow quick and easy set-up in your facility.

† *Specify 4-digit Color code. See Color Selections, Section A, pages 1 & 2 for Color Codes.*

SSCI laminated products are available in SSCI standard laminates, SSCI optional laminates, or Customer selected laminates.

Arrangements can be built with vertical access, horizontal access or both vertical and horizontal access. Vertically-stacked Suites must be of the same width. Please see our illustrations of Aristo-Cat Kitty Suite Types to determine the appropriate position codes for each Suite in your arrangement.

You can reverse the ambidextrous doors to open the other way with no additional hardware if you find it would work better for your needs. And when you add some of our finishing accessories, you'll find that Aristo-Cat Cages are not only the best, but also the most versatile laminated cages you can buy.

Arrangements may be mounted on a SSCI Laminated Toe-Kick Base, stainless steel Base with or without casters, or on your wooden or concrete platform.

A variety of Cage Arrangements are shown on the following pages. One may be ideal for your needs. However if you don't see an Arrangement that fits your facility, we will work with you to create the perfect configuration of cage types and sizes for your needs.

10

THE PERFECT ARISTO-CAT KITTY SUITE ARRANGEMENT IS JUST A PHONE CALL AWAY

SSCI's Design Service is offered to customers after discussing and agreeing on a viable project with an SSCI Representative. After a methodical review of the customer's needs for their facility, the SSCI Representative will present the project to our staff of designers to create a set of approval drawings. The drawings ensure that SSCI will supply exactly what the customer has discussed with the SSCI Representative. Once the customer has committed to purchase from SSCI and, if the drawings require revisions, the Final Approval Drawings will be created and presented to the customer for their approval. Other Customer Requirements may be required before manufacturing time can begin.

CREATING THE PERFECT ARISTO-CAT KITTY SUITE ARRANGEMENT TAKES JUST SIX EASY STEPS:

1 Measure your space.
Obtain overall width, height and depth of the available space in your facility where you plan to place your Aristo-Cat Kitty Suite Arrangement. To allow for the Suite, the minimum depth of the area must be 29-in. (73.66cm) plus the width of the widest Suite door in the arrangement. This will allow Suite doors to open fully. Make sure you have sufficient space in front of the Kitty Suite Arrangement for your staff to handle patients safely.

2 Choose the style of Aristo-Cat Kitty Suites in your Arrangement.
Our Aristo-Cat Kitty Suites styles give you two options.

3 Determine how your Aristo-Cat Kitty Suites will be arranged.
Some Aristo-Cat Kitty Suites Arrangements are shown on the following pages. If you don't see an Arrangement that will work for you, call us with your space measurements, and we will help you design an Aristo-Cat Kitty Suites Arrangement that will include the largest suites for the total number of animals you wish to accommodate.

4 Identify the Aristo-Cat Kitty Suite sizes you require.
First choose the sizes of Aristo-Cat Kitty Suites that fit your needs best.

5 Identify the Aristo-Cat Kitty Suite access types you require.
After you select the size of the Suites, you need to determine the access type needed for each Suite. Aristo-Cat Kitty Suite Arrangements can be built with horizontal access, vertical access or both horizontal and vertical access between individual suites. Vertically-stacked Suites must be of the same width. Determine the access type and add the 2-digit position code for each Suite to the Aristo-Cat Kitty Suite Product Number where indicated. Examples of the Arrangement access types and Suite position codes are shown on pages 12 to 18.

6 Aristo-Cat Kitty Suite Arrangements should be set up on a base
Aristo-Cat Kitty Suites Arrangements may be ordered with an SSCI base or without an SSCI base:
SSCI Stainless Steel Base (add casters to create a mobile base). Or order with no SSCI Base for use with a customer-built base.
Wood Platform Bases should be constructed level front to back and right to left of 2x4s measuring the width of your Arrangement and 29-in. (73.66cm) front to back.
Trowel-finished Concrete Pad should be poured level 3.5-in. (8.90cm) high and 29-in. (73.66cm) front to back.

If one of our illustrated Arrangements shown on the following pages won't fit your facility perfectly, let our designers help you create the ideal Arrangement for your needs. SSCI's design team will work with your specifications to create a Suite Arrangement suited to your unique needs, space requirements and budget.

It all starts with a phone call. Contact one of our representatives to discuss your requirements. We'll create a CAD-generated drawing of your Arrangement complete with all hardware needed for installation.

Our team of experienced designers will work with your measurements, cage style and size and budget to create the perfect Suite Arrangement for your requirements.

FOR EVERY ARISTO-CAT KITTY SUITE ARRANGEMENT PURCHASE, SSCI CREATES A DRAWING TO ENSURE THE CUSTOMER'S SATISFACTION
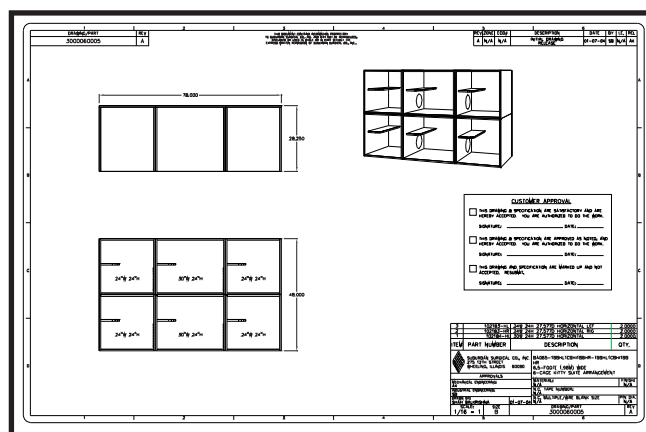

SSCI creates an Approval Drawing for each Suite arrangement ordered. These detailed drawings of your Suite arrangement list Suite sizes, quantities, laminate choice and all appropriate hardware and illustrate how the arrangement is to be assembled. If you choose to alter the positions of the suites in the arrangement or your choice of laminate, do not sign the existing Approval Drawing. Contact your SSCI representative, so that a new Approval Drawing can be created.
All laminated products are non-stocked, made specifically per your specifications. Once SSCI has received the signed Approval Drawing the order is non-cancelable. In addition to other customer requirements, the Final Approval Drawings must be signed and received by SSCI prior to the beginning of manufacturing lead time.

Matching

or contrasting laminated Top and End Panels and other accessories give your Aristo-Cat Kitty Suite Arrangement a finished appearance. Add a Base with Casters for mobility.

Cabinetry Base

Designed to attach easily to your Aristo-Cat Kitty Suite Arrangements, laminated Top and End Panels are laminated in your choice of colors to match or coordinate with your Arrangement. Without these panels the outside of the arrangements are unfinished. Top and End Panels are required to giving it a clean, finished appearance.

A Top and end panels give your Arrangement a finished look.

B

A Top Panels

Order the combination of panels you need to span the entire top of your arrangement. For example: for a 48-in. (121.92cm) wide arrangement, you need to order two 24-in. (60.96cm) wide panels or one 48-in. (121.92cm) wide panel.

Aristo-Cat Kitty Suite Arrangement Base Cabinetry

Place your Kitty Suite Arrangement on a Cabinet Base to keep supplies close at hand. Laminated cabinet bases are available in a variety of styles and widths to suit your needs. Choose a combination of Floorstanding Cabinets that equals the width of the arrangement. Cabinet widths match individual Suite widths. Aristo-Cat Kitty Suite Arrangement and Base Cabinets above are shown with End Panels. End Panels give your Arrangement a finished appearance.

ARISTO-CAT BASE CABINETRY FEATURES THESE HIGH-QUALITY CONSTRUCTION DETAILS AND MATERIALS:

Body panels are constructed of 45-lb. density, industrial-grade substrate. Panels are machined on CNC equipment for accurate, tight-fitting dadoed and rabbetted joints. Joints are glued with adhesive which is impervious to liquids and are mechanically-fastened to ensure a solid, sturdy cabinet.

All cabinet interiors are finished with Thermo-Fused Melamine, making them water, odor and chemical-resistant.

Drawer's steel sides feature integrated roller slides with baked-on, white epoxy finish. Drawer's back/bottom are .625-in. thick; open/close easily with 100 lb. load. 3D micro-adjustment ensures drawer alignment.

Door's positive-action, invisible hinges have self-closing mechanism, also holds the door open. 3D micro-adjustment ensures door alignment.

Doors and drawer fronts are available with Chrome Wire Pulls or Full-width Aluminum Pulls.

All finished, exterior surfaces including the body's top, edges, and the recessed toe space, drawer and cupboard door edges are laminated with high-pressure plastic laminate.

Aristo-Cat Kitty Suite Vented Litter Box/Storage Cabinet

Aristo-cat litter/storage cabinets are available for all Kitty Suite arrangements and are configured with a fixed shelf which creates 2 individual compartments that can be individually accessed.

The lower compartment space offers a practical solution for concealing litter pans in a private vented space with an access port from the Aristo-Cat kitty suite compartment.

The upper compartment space provides concealed storage for food, supplies, medications, treats, toys, etc.

Shown in Optional Laminate Finish and Color.

Important: *These customer order requirements, in addition to other customer order requirements, must be satisfied prior to the beginning of manufacturing lead time:*
†*Specify 4-digit Color code. See Color Selections, Section A, pages 1&2 for Color Codes.*
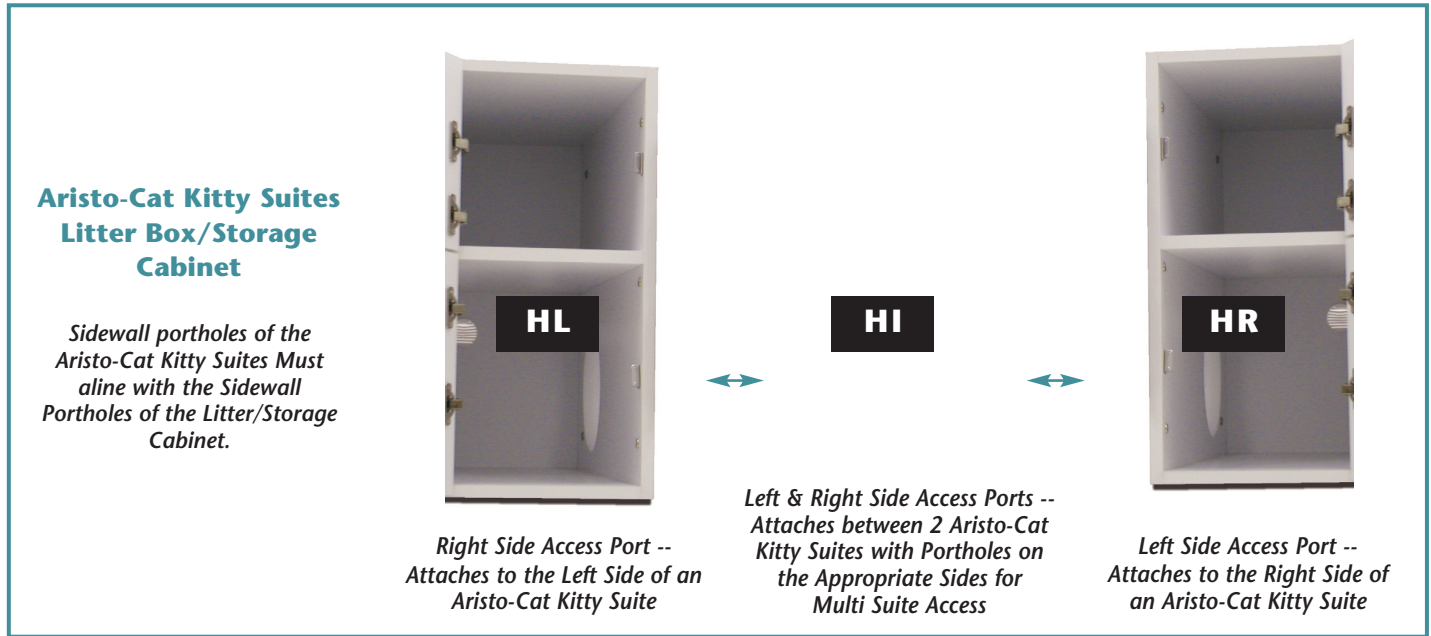

SSCI laminated products are available in SSCI standard laminates, SSCI optional laminates, or Customer selected laminates.

ALL LITTER BOX/STORAGE CABINETS IN ARISTO-CAT KITTY SUITE ARRANGEMENTS REQUIRE POSITION CODES

Identify the Position Code for each Litter Box/Storage Cabinet in the Aristo-Cat Kitty Suite Arrangement:

Position Codes determine the physical placement of each Litter Box/Storage Cabinet in your Kitty Suite Arrangement. Each code indicates the side access port(s). The Position Codes are shown in the black boxes on the Litter Box/Storage Cabinet in the example. These Litter Box/Storage Cabinets are designed to be placed in the Bottom Tier, Intermediate Tier(s) and Top Tier.

Aristo-Cat Kitty Suites Litter Box/Storage Cabinet

Sidewall portholes of the Aristo-Cat Kitty Suites Must aline with the Sidewall Portholes of the Litter/Storage Cabinet.
